Private Fee Mini Guide

We provide you with dental care and advice based on a rate that allows us to cover the cost of our facilities, materials and staff wages. The cost of your care depends on the time spent with the dentist or dental hygienist and the cost of any laboratory work.

As a guide the costs of some common private treatments are given opposite. **A full estimate and treatment plan are always available upon request.** You will be advised of any proposed changes during a course of treatment. Should you require any further information, please do not hesitate to ask a member of staff or your dentist. Please also ask about the practice's payment policies and the different ways of paying.

* All regular and new patient examinations / consultations include up to two bitewing style intra-oral digital radiographs at no further charge.
